WELCOME

# TO CALIFORNIA

Welcome ladies and gentlemen to the European segment of the Eagles Farewell I tour. We are very excited to be performing for both old and new friends. This tour finds us returning to Europe for the first time in five years and performing in some cities where we've never played before.

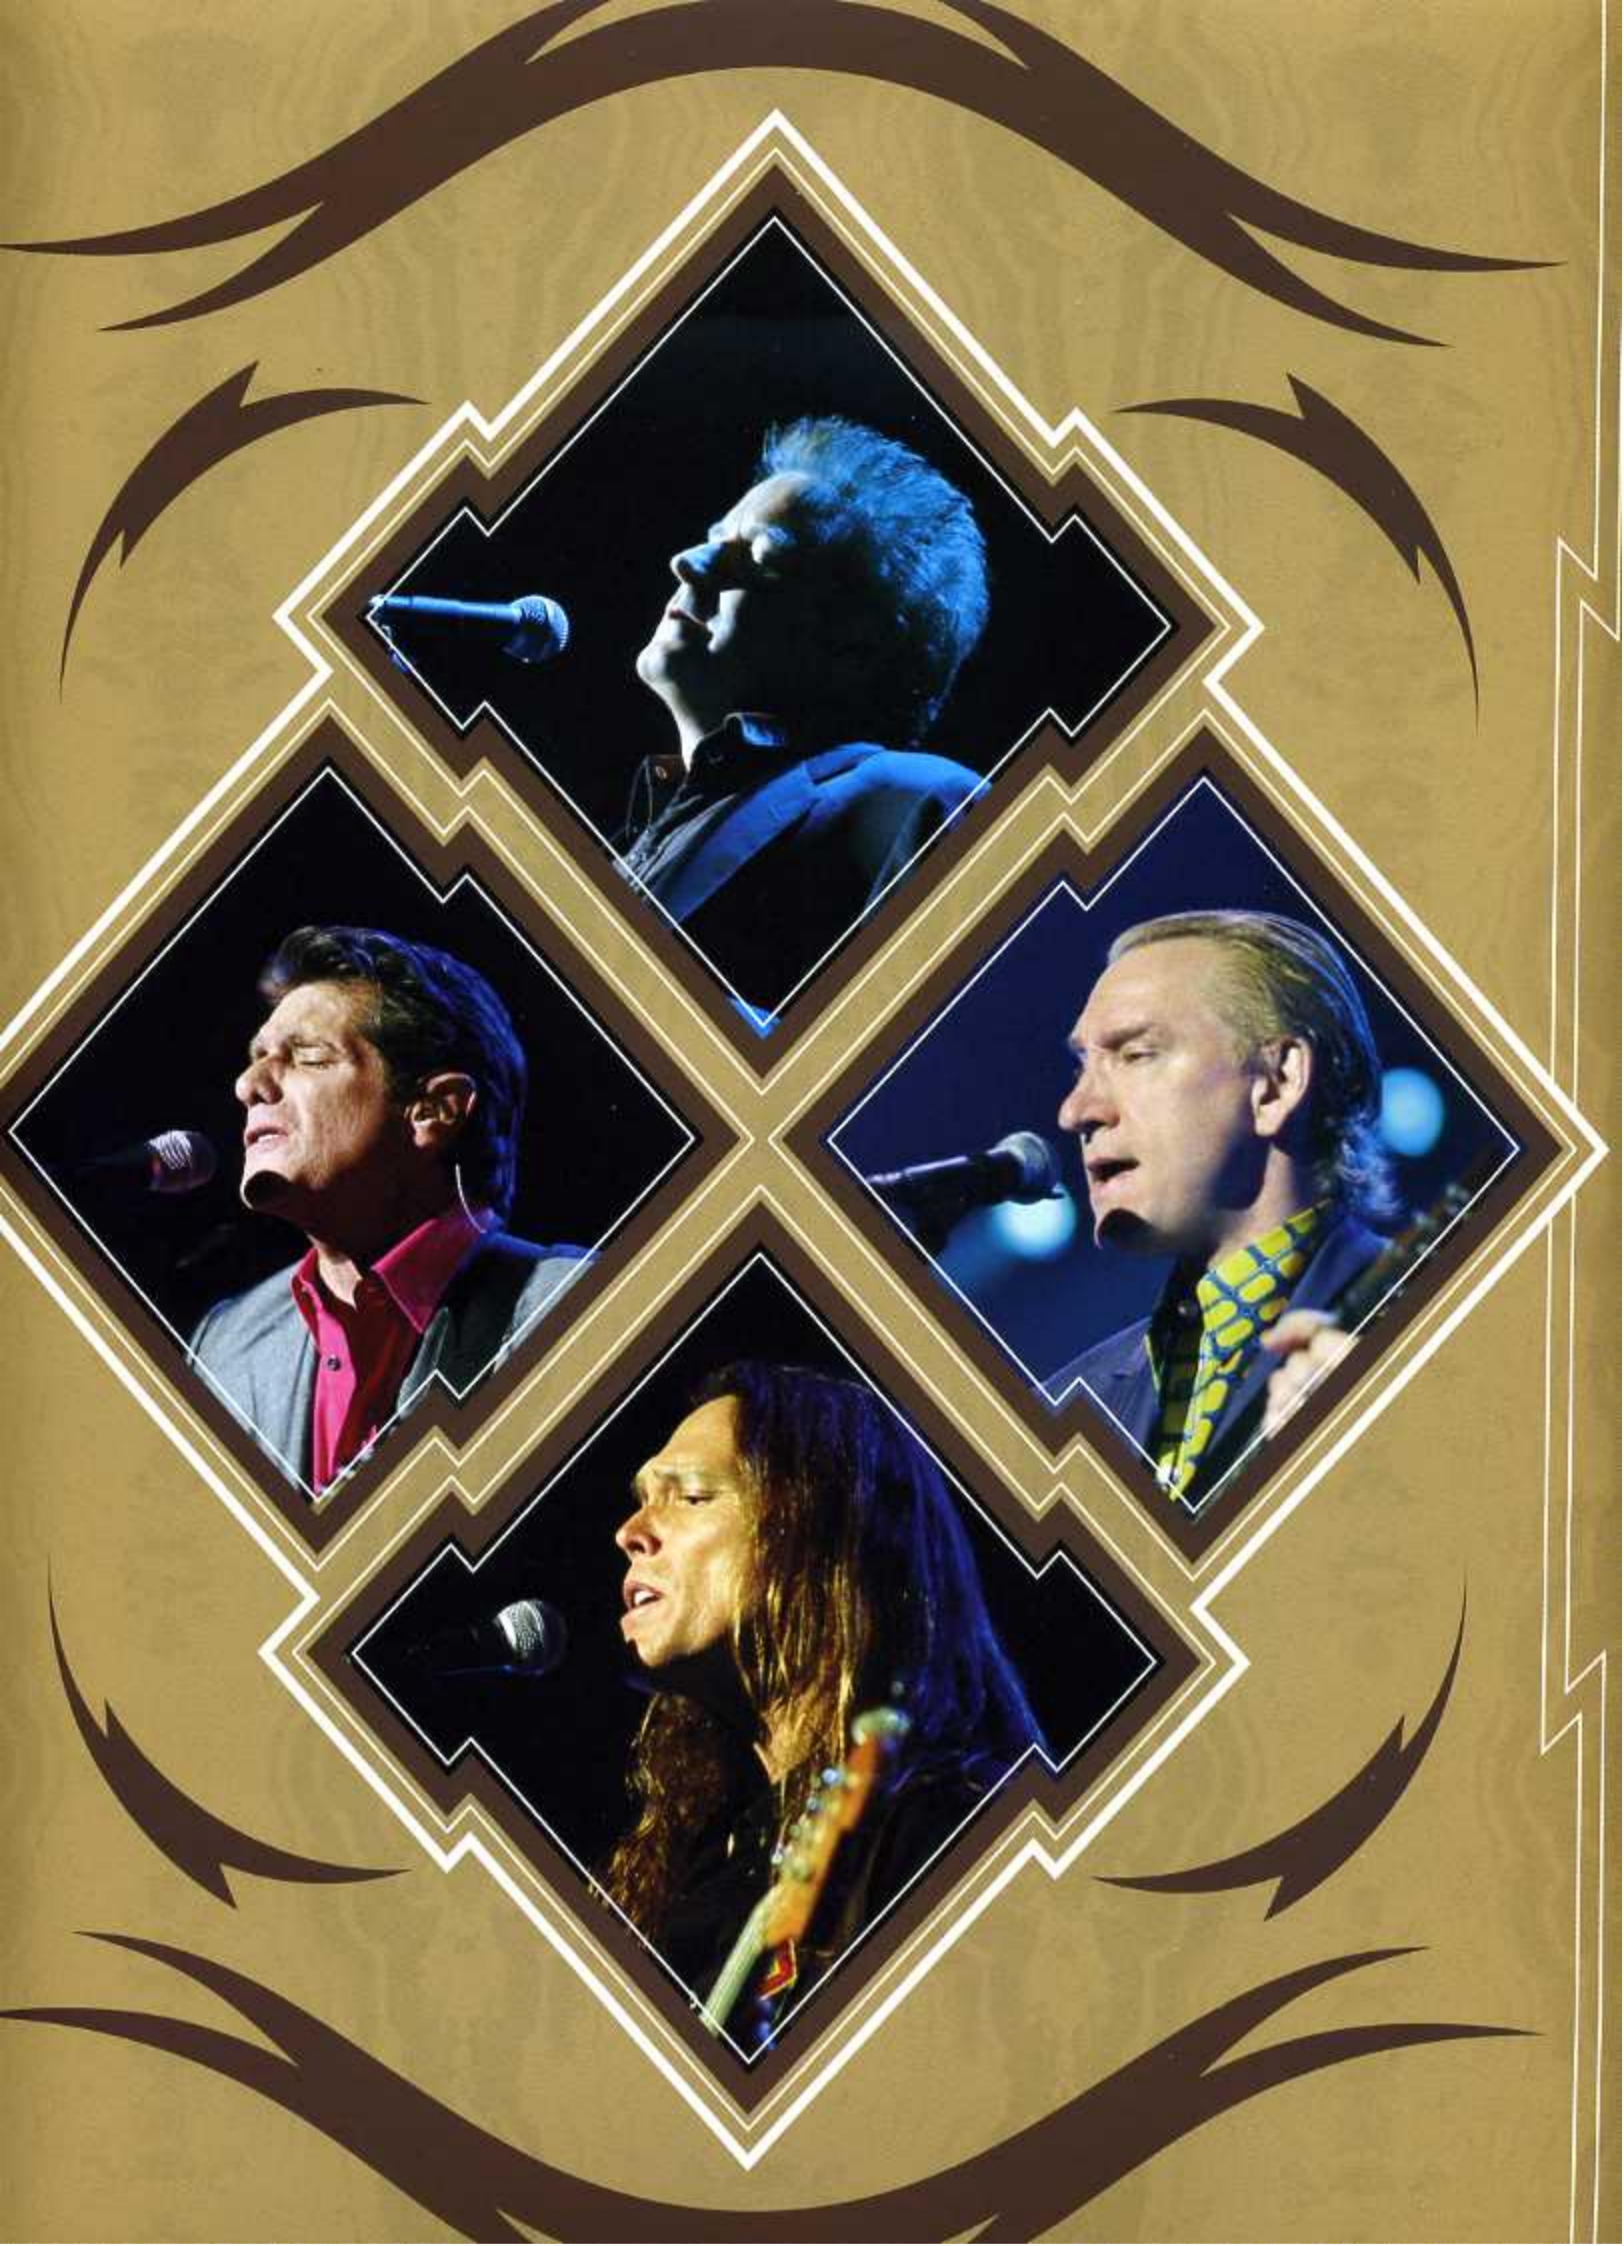

The name of the tour, Farewell I, was originally a tongue-in-cheek spoof of some of the elders in our profession (including ourselves), who announce their retirement only to come out of retirement again, and again... and again. But, actually, this could turn out to be our last tour. You never know with the Eagles because we operate one tour at a time. Whether it is or isn't our final go-round, tonight is a celebration of 34 years of Eagles music.

We are here tonight because of you—our fans—and we're truly grateful for your support and dedication throughout the years.

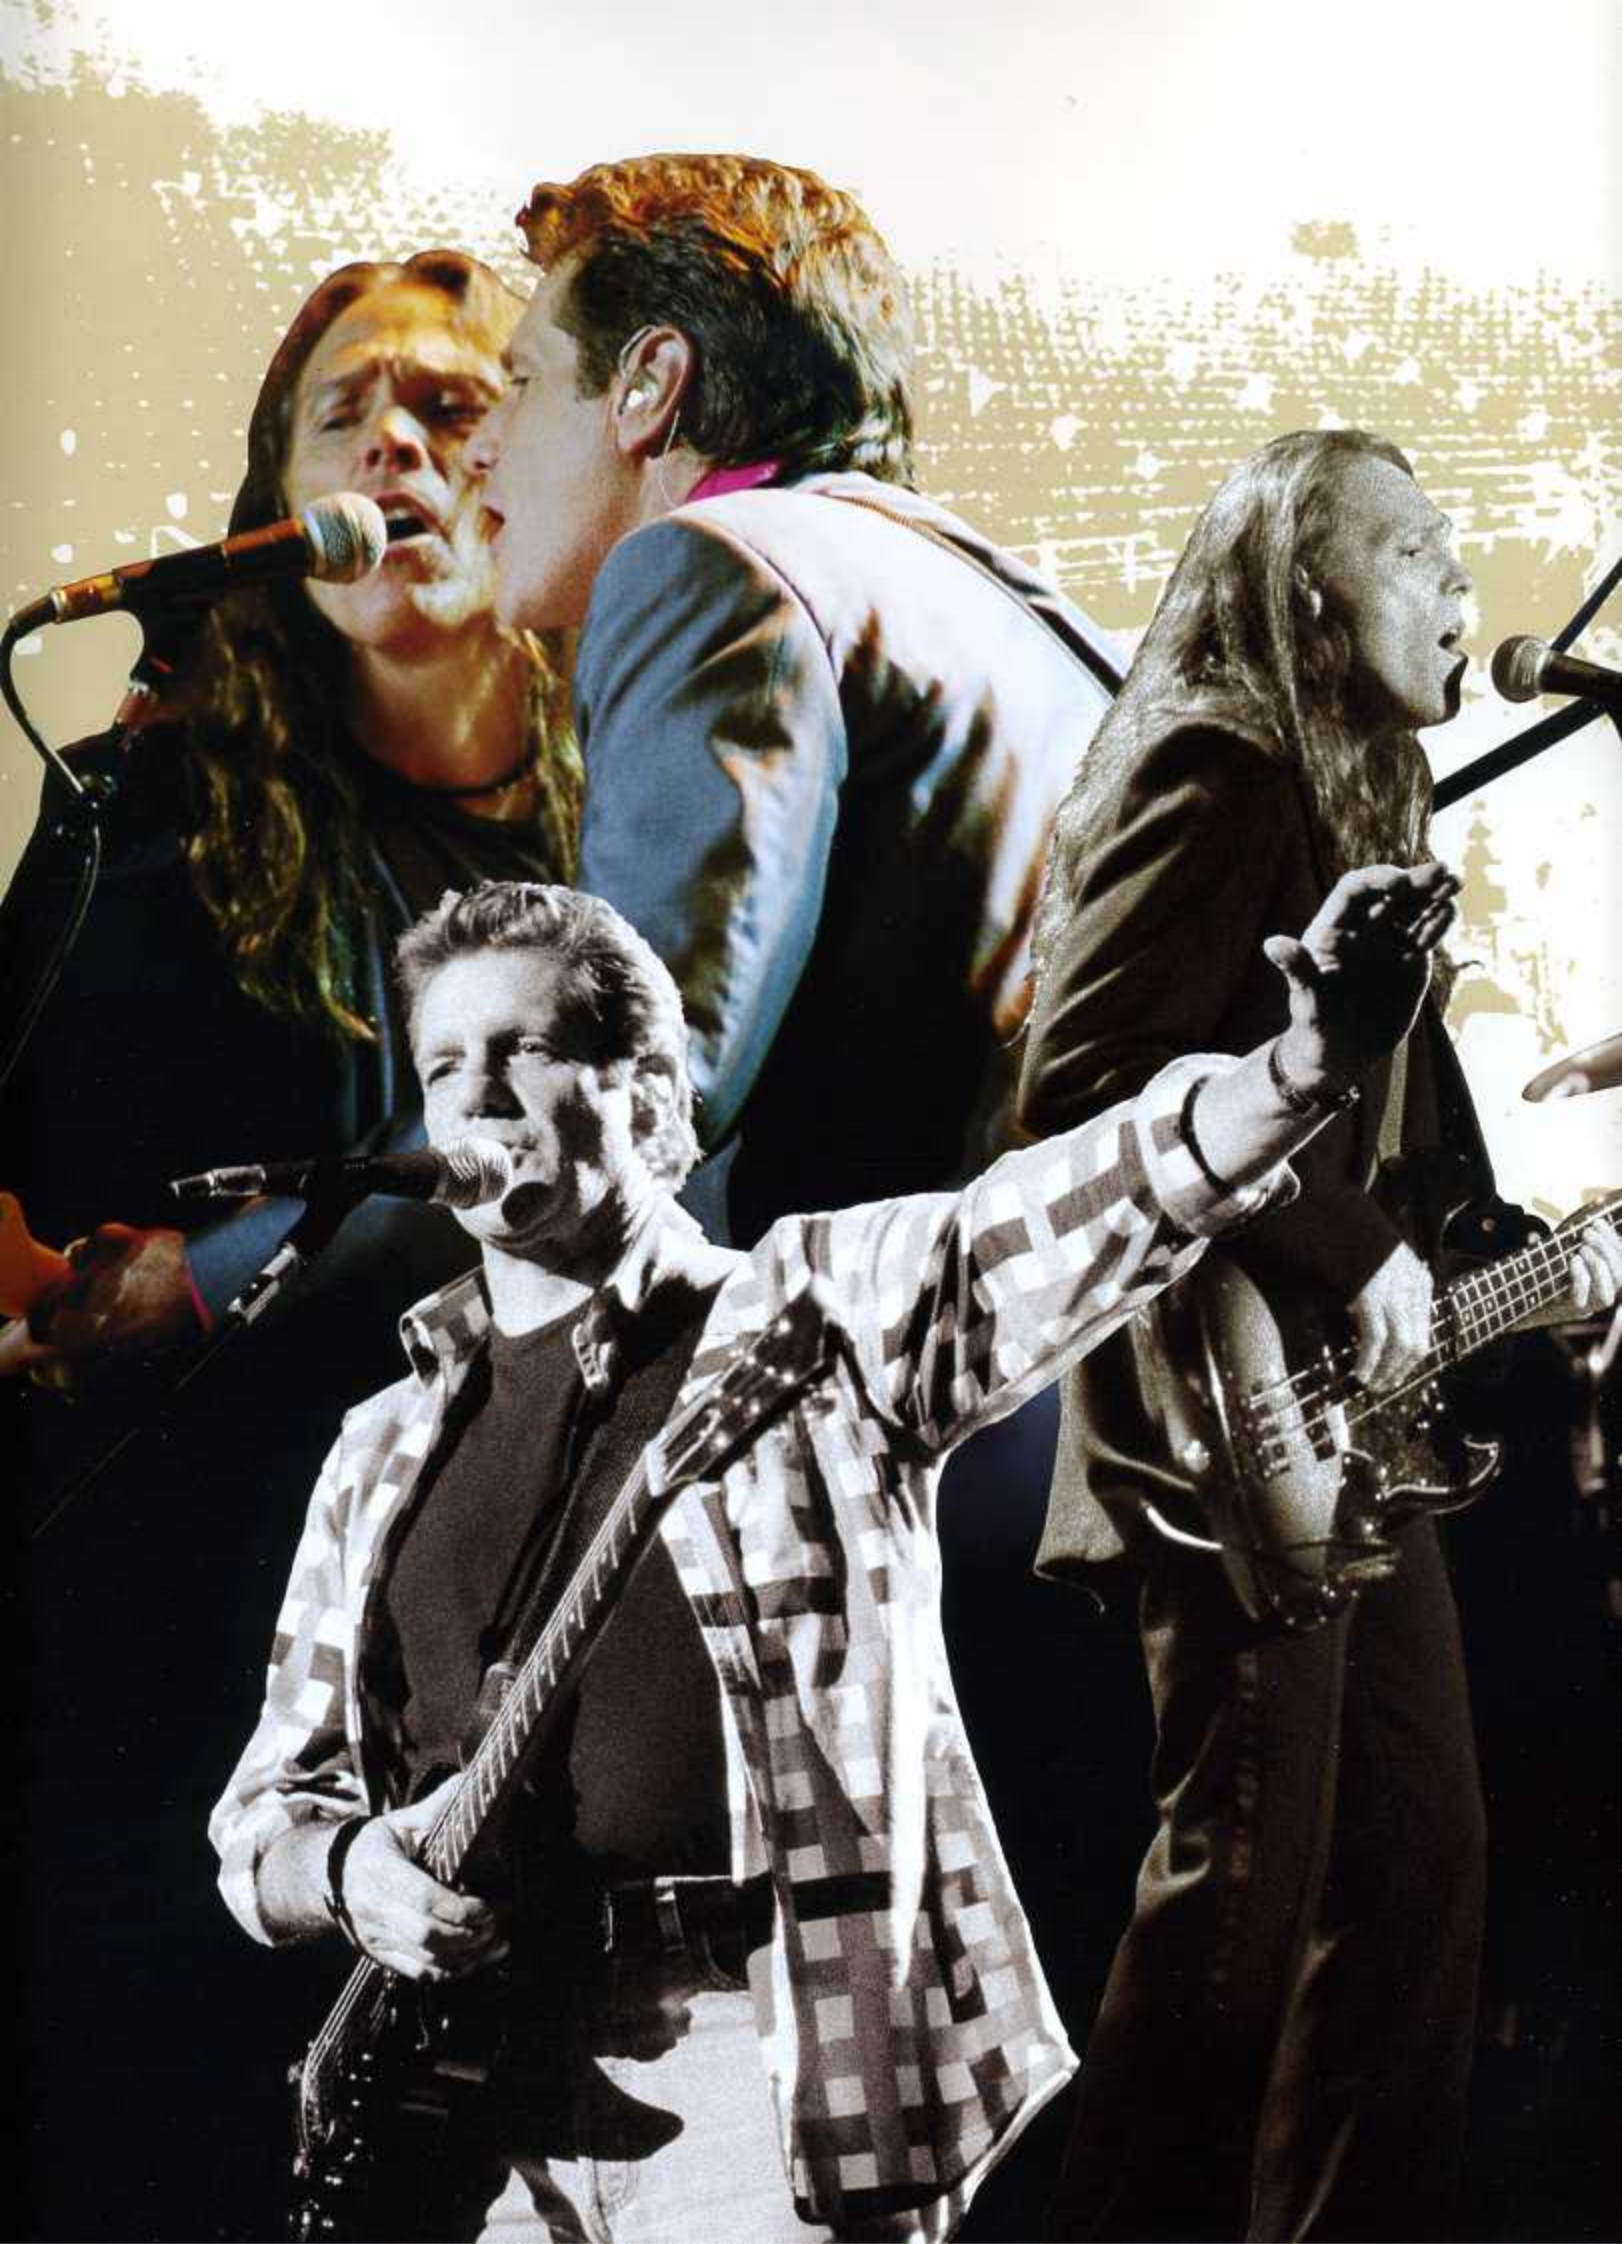

So, please sit back, relax and enjoy the show. We love singing and playing for you.

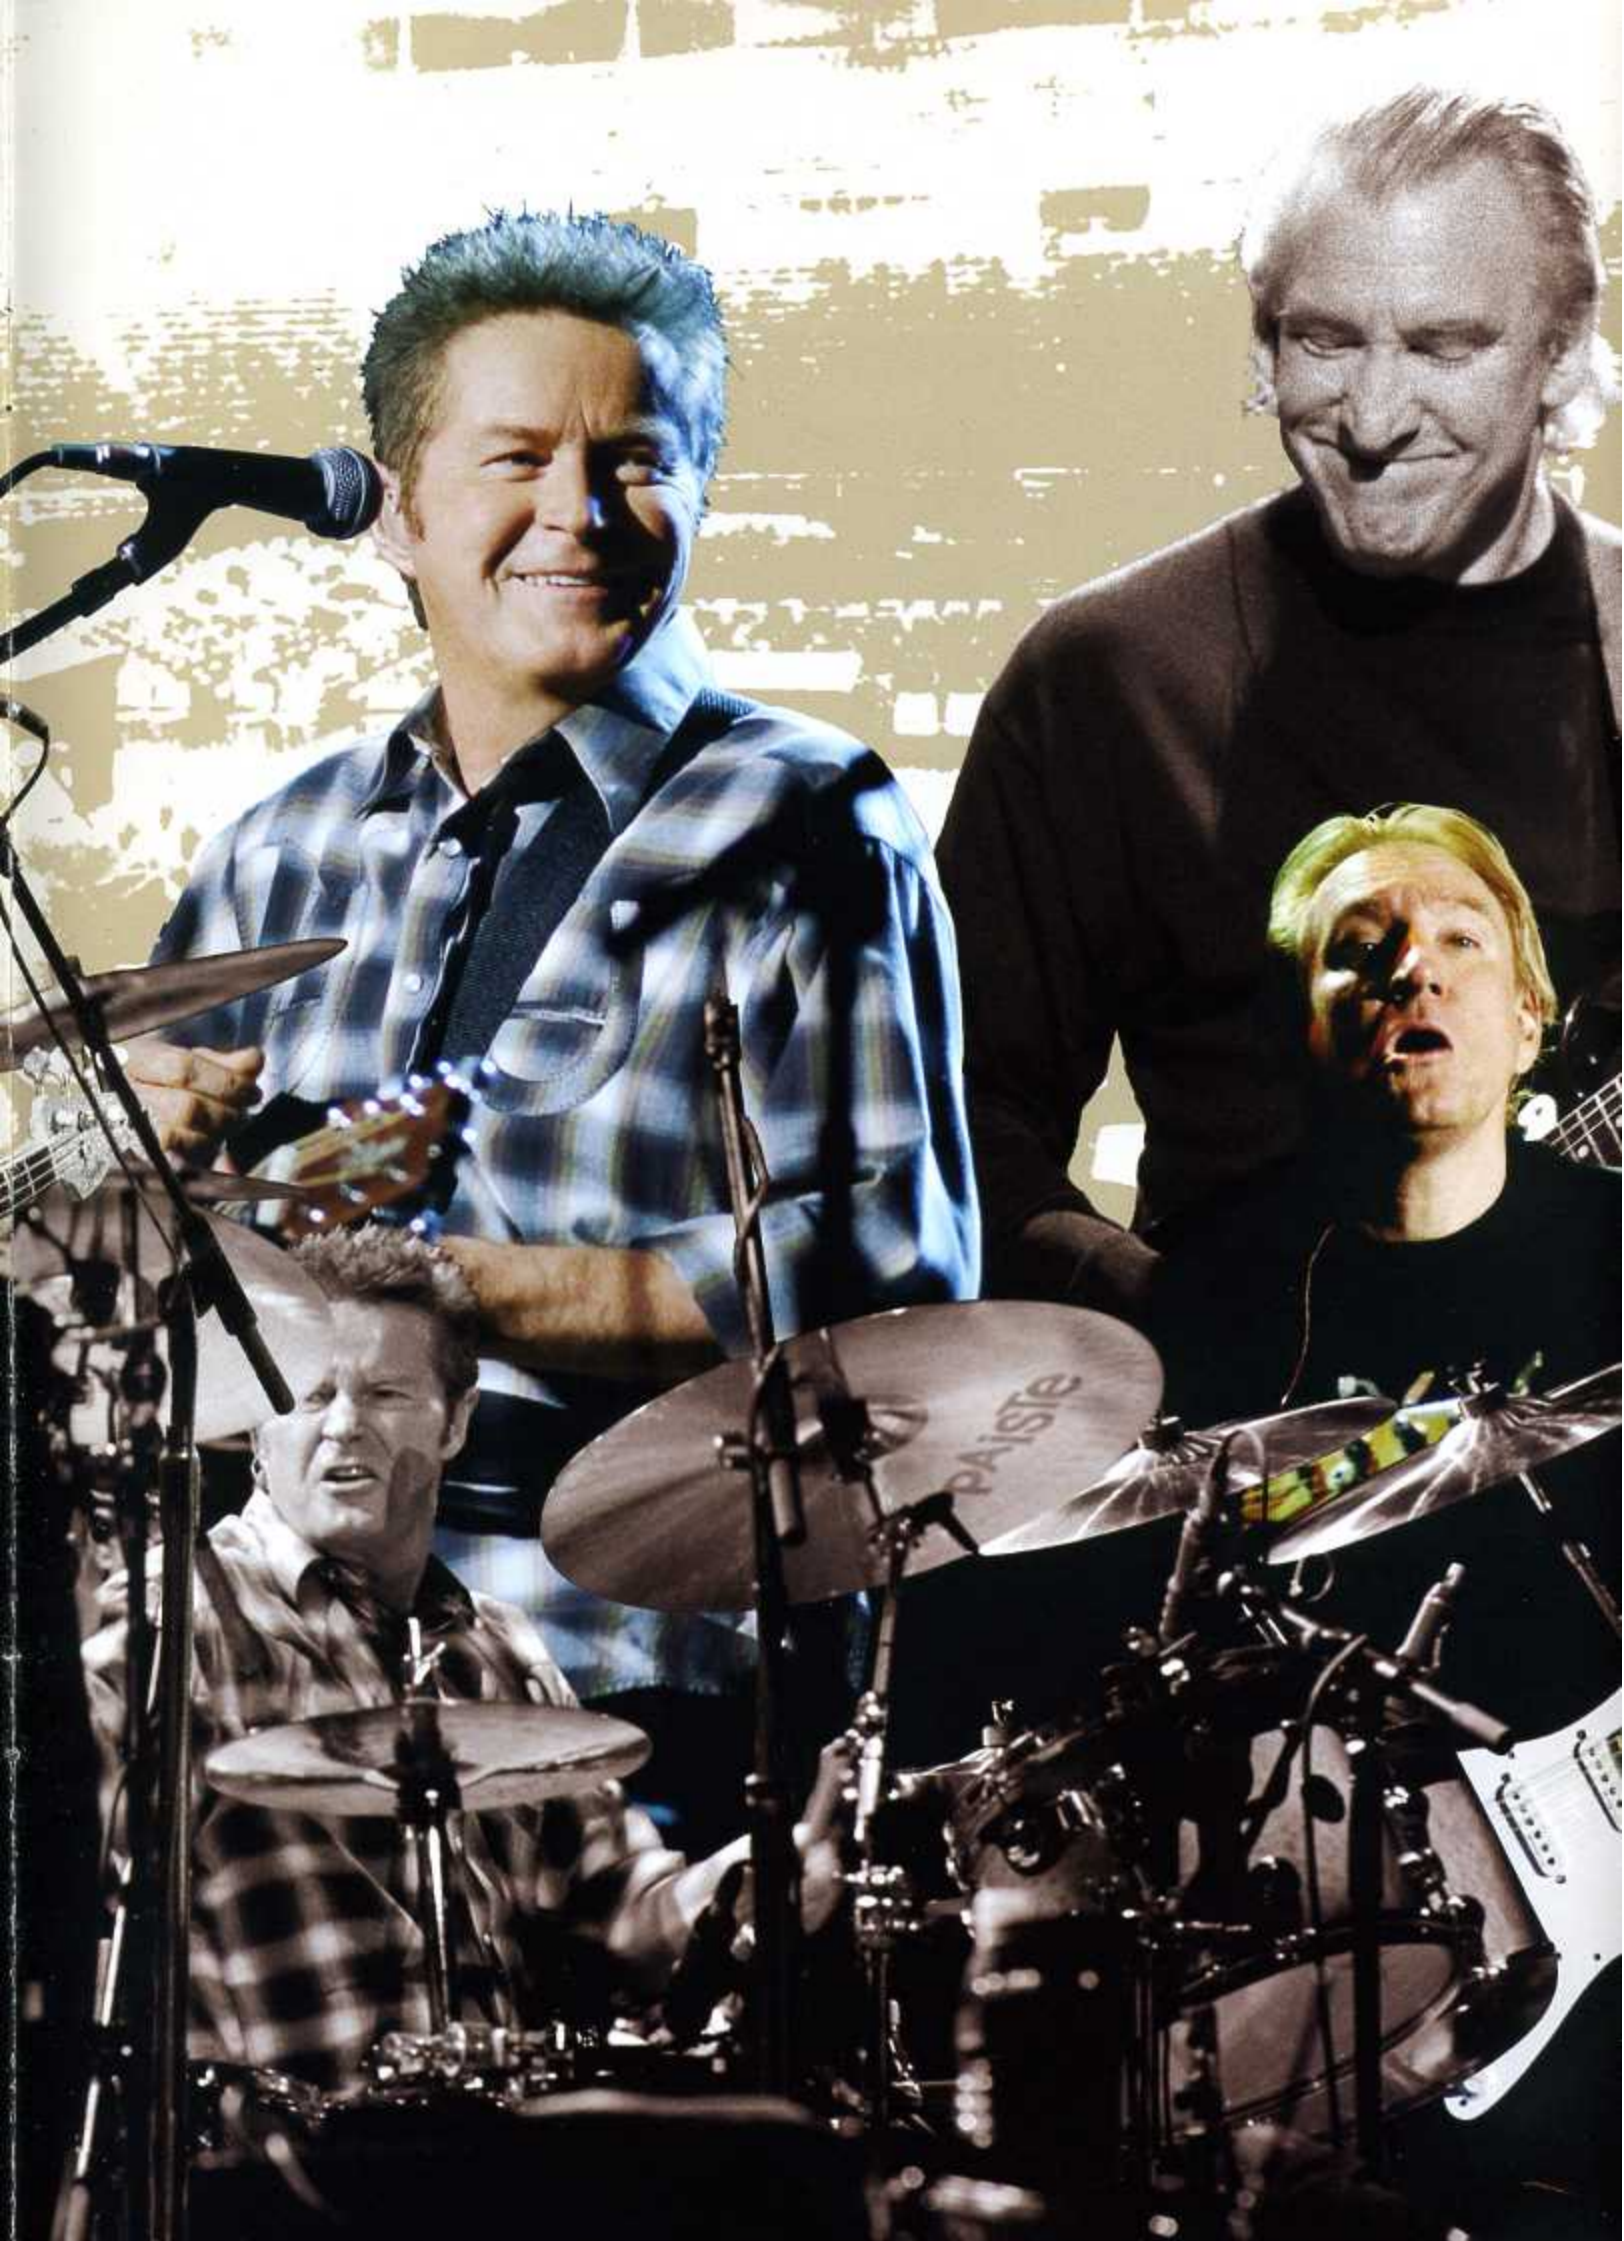

Thanks for coming.
